# eChecks PRO

AS SIMPLE AS WRITING A PAPER CHECK.
AS FAST AS SENDING AN EMAIL.

eChecksPro™ is everything you're used to when it comes to writing out a paper check with one big difference — **electronic delivery.** That means you can send payments from anywhere, at anytime, to anyone. Fast, easy, secure. **That's eChecksPro!**

HOW IT WORKS

SENDER

By pairing our easy-to-use system with your accounting software, you can send one or hundreds of checks with a single mouse click. It's quick, easy and affordable, eliminating stamps, envelopes and labor costs.

RECIPIENT

As soon as you hit "send," your eCheck is delivered to the recipient instantly and safely. Every eCheck is time stamped, virtually eliminating the chance of fraud.

PRINT and DEPOSIT

Whenever you send (or receive) an eCheck, an email notification is delivered. Clicking on the embedded link brings up the check retrieval screen where the recipient can print the check.

HERE'S WHY eCHECKSPRO IS YOUR BEST PAYMENT SOLUTION:

Features/Benefits	eChecksPro	Bank ACH	Online BillPay	Consumer Payment Engines		
				PayPal®	Zipmark™	Dwolla®
